

We take the **worry** out
of **painful** situations...

With the **best** after-hours
pediatric care you **can get.**

You already deal with enough stress when your little one is sick or injured. That's why Rainbow RapidCare at St. John West Shore Hospital specializes in treating children after hours when you can't see your doctor.

Only at Rainbow RapidCare do you have the peace of mind that your child will be seen by a Board Certified pediatrician with ER training. Should your child require more critical, long-term care, we have the support of a full Emergency and Pediatric Department. And, we're affiliated with Rainbow Babies & Children's Hospital, rated the finest children's hospital in the Midwest.

Best of all, we're right in the neighborhood. And, within 24 hours of treatment, we'll provide your pediatrician or family doctor a full report.

Unfortunately, we can't keep your child from getting sick or hurt. But with convenient hours, a nearby location and some of the best pediatric specialists, we can make a painful situation a little less stressful.
